The premise of PD is that in every community there are certain individuals or groups whose uncommon practices or strategies enable them to find better solutions to problems than neighbors and peers who have access to the same resources. PD is led by people in the community who help identify and spread the successful practices. Additional benefits of use of the PD process to fight infection turned out to be improved workplace relationships, healthier and more resilient organizational cultures, and expanded networks of people in many fields and geographical locations who shared ideas, resources and the inspiration of their own contributions to saving lives. The Positive Deviance movement is changing the landscape of how we achieve transformation and change in systems. Peter Block, Author, *Community: The Structure of Belonging*. Inviting Everyone chronicles the astonishing achievements possible when people truly work together and are aided by pioneering processes like Positive Deviance. Nicholas...
