Cambridge University Press. Paperback. Book Condition: New. Paperback. 120 pages. Dimensions: 8.4in. x 5.4in. x 0.4in. John Browning (1830-1925) was the leading British manufacturer of precision scientific instruments, including spectrosopes, telescopes, microscopes, and ophthalmoscopes. In *How to Work with the Spectroscope* (1878), he provides a complete overview of the field in which he was the undisputed expert, describing in detail the care and use of instruments ranging from the universal spectroscope to the star spectroscope to the induction coil. This volume also includes *Brownings A Plea for Reflectors* (1867), in which he provides an introduction to the silvered-glass reflecting telescope. Numerous illustrations of the various instruments and a complete price list of Brownings lenses and other apparatuses provide important insight into his business practices and range of expertise. Designed for the lay enthusiast no less than the dedicated scientist, these volumes are also valuable witnesses to the growth of popular science in nineteenth- and early twentieth-century Britain. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
