Contents:- The search for petroleum requires a multidisciplinary approach. The various geological, geophysical and geochemical surveys point towards the most geographical locations, geological structures, depositional environments and periods for hydrocarbon accumulations. Therefore, an encyclopaedia with multidisciplinary approach is very much in need. This encyclopaedia fulfills all these criteria. It is a mine of information which is comprehensively dealt with in 16 volumes. This will meet the requirements of geologists, Geophysicists, geochemists, science students, researchers, libraries and information centres. This will help to promote geophysical understanding. Vol. 1 : Exploration This volume is designed as an encyclopaedic dictionary. The uses of geophysical terms are its subject matter. This also aims at to make the interconnection among the different disciplines of exploration Geophysics like survey, data...
